

The K-Love radio station serves me in the local community more than you can imagine! This station ministers to me on a daily basis and keeps my spirits uplifted every day of every week of every year! Without access to this radio station, I would be a lost lamb trying to find and purchase CDs to replace that which has been a radio station away for quite some time! If K-Love was displaced by an LPFF broadcaster providing other programming, the effect on this local community would be detrimental! We have a high percentage of local youth with drug problems and K-Love ministers to them as they come out of these darkneses and into the light of Jesus Christ. The music played is upbeat and uplifting, positive, and encouraging, while bringing the message of hope and love to those who have been lost for a time. K-Love meets a vital need in this community! This service provided by K-Love is in the public interest in that saving our youth provided for a stable society! Please do not remove K-Love from our airways!!! K-Love is of vital importance in the day-to-day emotional well-being of this community! Without it, we are limited to praise and worship once or twice each week, at church...unless one can afford to purchase a collection of CD's. WITH K-Love, we can praise and worship our Lord 24 hours each day, 7 days each week... free of charge, as the presence of Jesus Christ is meant to be!!!
